AID ASKED

Mayor Sanchez of Laredo has Tele-
graphed to Governor Lanham.

Laredo, Tex., Nov. 18.—Decidedly
cooler weather prevailed here Tuesday,
and while it did not result in a large
death list, it did have some effect in
bringing out a large number of new
cases. The official bulletin of the situ-
ation Tuesday is as follows. New
cases, 37; deaths, 2; total cases to
date, 947; total deaths to date, 92. Of
the cases brought to light Tuesday 33
are new and 4 are old.

The condition of Dr. Murray, the
dean of the marine hospital service,
who was injured in a runaway acci-
dent on Sunday last, is greatly im-
proved. Hundreds of telegrams and
several cablegrams have been received
from all parts of the country express-
ing regret at the misfortune which be-
fel Dr. Murray.

Three new cases of yellow fever
have made their appearance at the
Cannel coal mines, making the total
number of cases at that place 19.

Mayor Amador Sanchez addressed a
telegram to Governor Lanham asking
for aid.

OPEN SESSIONS.

State Federation of Labor Has Decided
to Hold Them In Future.

Fort Worth, Nov. 18.—The State
Federation of Labor Tuesday heard re-
ports as to the conditions of labor or-
ganizations in Texas. Delegate Wood-
all of Thurber said his town was union
now. Members of trades unions were
urged to take active interest in poli-
tics and conventions. Recently enacted
law was not favorably regard-
ed. It was decided to hold open ses-
sions hereafter.

Union Bricklayers.

Austin, Nov. 18.—The Texas state
convention of the Bricklayers' and Ma-
sons' Union of America elected the fol-
lowing officers: President, George D.
Borden, Dallas; first vice-president,
Pride, Austin; second vice-presi-
dent, Charles Pound, Beaumont; sec-
retary, Corsicana;

QUARANTINE RAISED.

Dr. Tabor Has Lifted the Embargo
From the Alamo City.

Austin, Nov. 18.—Dr. Tabor has lift-
ed the quarantine against San Antonio,
but left it against Laredo. It is under-
stood county quarantines will be taken
off at once. The intense cold wave
led the state health officer to take this
step.

TEXAS' COLD WAVE.

It Is Thought All Further Yellow Fe-
ver Menace Is Stopped.

Austin, Nov. 19.—The cold wave which
hit Texas Wednesday was more in-
tense than predicted. The state health
department reports a freeze over the
state save near Laredo, where a heavy
frost prevailed. The frost kills yel-
low fever and all quarantines will be
raised this week. The cold wave, it
is believed, will make it impossible for
further spread of the disease any-
where in the state.

San Antonio Rejoices.

San Antonio, Nov. 18.—When the news
came from Austin that Dr. Tabor had
raised the quarantine whistles was
blown, bells rung and people went
wild with delight.

BUTTED INTO BUILDING.

Locomotive Leaves Track and Partly
Enters a Dallas Business House.

Dallas, Nov. 18.—A Texas and Pacific
switch engine jumped the track at 4
o'clock Wednesday morning and ran
into the back door of the furniture
store of R. G. Dennis. There were
a number of bricks dislodged and the
locomotive sustained a smashed head-
light and badly jammed smokestack.
The engineer and fireman were not
hurt. Some goods in the store were
damaged. The locomotive barely en-
tered the establishment.

MADE PUBLIC.

Fisher Alleged to Have Paid Five
Hundred Dollars to Senator.

Omaha, Nov. 18.—No capias has yet
been issued for United States Senator
Dietrich, who, together with Postmaster
Jacob Fisher of Hastings, Neb., was
arrested Monday by the federal grand
jury charged with bribery and conspir-
acy. An indictment against
Fisher has not been per-
mitted to be made.

LETTER WRITING.

Its Decline as an Art Caused by the
Modern Newspaper.

The wonderful development of the
newspaper may be looked upon as a
very potent factor in the decline of let-
ter writing as an art. The letter no
longer can be regarded as primarily
the carrier of news. The expression of
one's opinion about great contemporary
events is indeed still left to the letter,
but how much of an incentive to
friendly correspondence is lost by the
fact that every part of the world
knows of important happenings almost
simultaneously is not to be lightly es-
timated, says Gunton's Magazine. The
stimulus to writing that comes from
having "news" to impart is done away
with, and it is not always that even
the gifted letter writer can afford to
lose that incitant. It is only the corre-
spondent par excellence who knows
how to attain the perfection of his art
by writing delightfully of nothing, if
indeed that may be called nothing
which affords him a means for the em-
ployment of his delicate perceptions.
For the saving quality of the genuine
letter is in the ability of its author to
put himself into it. If he writes about
trivial things he does it with a grace
of interest that disguises the triviality.
He must not make his little fishes talk
like whales, but he should, as Gold-
smith himself knew how to do, make
his letters of perpetual interest be-
cause of the aptness of their style to
the simplicity of their thought.

The Delights of Nudity

tasy that no primitive instincts

COMMITTEE HAS REPORT OF PRICES

Quoted by Various Houses, on Improved Cotton Seed and Other Articles.

The Brazos County Farmer's Institute will meet in the court house at Bryan Saturday of this week, Nov. 21st. This is a meeting called for the especial purpose of hearing the report of the committee on purchase of seeds. Improved, early maturing cotton seed, and seed Irish potatoes and other seeds are embraced in the report.

The chairman of the committee tells the Eagle man that he has been busy, and has several replies to his letters that will be of interest to the farmers.

The Hog Show will be held in the court house yard the same afternoon, and at a convenient hour the Farmer's Institute will be held to meet in the court house. Everybody interested in the purchase of seeds should be sure to attend.

Tragedy Long

Pathetic Story of tiny on the United Ship Somers.

Awful Fate of the Conspirators Who Aimed to Capture the Ship and Convert Her Into a Pirate.

The most painful, pathetic and picturesque page in the history of the American navy was the hanging at the yardarm for the crime of conspiracy to mutiny of Midshipman Spencer, Boatswain's Mate Cromwell and a seaman named Small on board the United States war ship Somers.

Midshipman Philip Spencer, whose father, John C. Spencer, was at the

THE CONSPIRATORS SWUNG FROM THE YARDARM.

time secretary of war under President Tyler, was serving on the United States ship Somers, Captain Alexander Sildell Mackenzie, in December, 1842. The ship was homeward bound from Liberia when Spencer formed a conspiracy with the crew to kill the captain, seize the ship and fit her out as a pirate at the Isle of Pines.

With Boatswain's Mate F. Cromwell and Ellisha Small, a seaman, Spencer was seen in secret and nightly conferences, and to both of these he gave money, as well as to others of the crew. He distributed tobacco extensively among the apprentices in defiance of orders. He corrupted the wardroom steward and caused him to steal brandy from the wardroom mess.

When among the crew Spencer loaded Captain Mackenzie with blasphemous vituperation and proclaimed loudly that it would be a pleasing task to roll him overboard off the roundhouse.

These and various other circumstances determined Captain Mackenzie to make sure at once of Spencer's person, and accordingly at evening quarters all the officers were ordered to lay aft on the quarter deck except the midshipman stationed on the fore-castle. The master was ordered to take the wheel, and those of the crew stationed abaft were sent to the mainmast. Captain Mackenzie approached Spencer and said to him:

"I learn, Mr. Spencer, that you aspire to the command of the Somers?"

"Oh, no, sir!" replied Spencer with a deferential but unmoved and gently smiling expression.

"Did you not tell Mr. Wales, sir, that you had a project to kill the commander, the officers and a considerable portion of the crew of this vessel and convert her into a pirate?"

"I may have told him so, sir, but it was in joke."

"This, sir, is joking on a forbidden subject. This joke may cost you your life. Be pleased to remove your neck handkerchief. What have you done with the paper containing an account of your project, which you told Mr. Wales was in the back of your neck handkerchief?"

"It is a paper containing my day's work, and I have destroyed it."

"It is a singular piece to keep day's work in."

"It is a convenient one," was the deferential and bland reply.

"You must have been aware that you could only have compassed your designs by passing over my dead body and after that the bodies of all the officers. You have given yourself, sir, a great deal to do. It will be necessary for me to confine you, sir," saying which Captain Mackenzie turned to

the captain's quarters. The captain kept those quarters as a place of confinement for the mutineers. The captain addressed the mutineers and found a dangerous faction among them determined on the execution of Spencer, as an example. The mutineers were to be hanged from the yardarm. The scene was a tremendous one.

The captain summoned the crew to witness it and in ten minutes in which to convey a message to his parents. The man admitted his crime and repentance.

The captain then ordered the drums to be fired to the head. It was his intention to have the drums beat to call as colors, then roll off the gun. The roll to fire a gun. The captain allowed himself to be fired. The fire the gun. This request was refused, and the drum and fire were missed. He asked if the gun was under him and was told that it was next but one to him. He begged that no interval might elapse between giving the word and firing the gun.

Captain Mackenzie now placed himself in the situation from which he could see in everything, but no way. The captain was in the yardarm.

The pros and antis compromised their case at Lufkin and under the agreement the saloons will remain open until February 15th, after which they will close for two years.

Cotton Statistician Neill estimates this season's crop of cotton at 10,865,000 bales, which is probably excessive, as his estimates usually are. Not many years ago Mr. Neill estimated a record breaking crop that fell below the normal, and that estimate being accepted by English spinners, cost the Southern planters millions of dollars. There is no fear of such a result this year. Good prices have prevailed since the opening of the season and will continue to prevail to the end of the season, for the bulls have the upper hand of the bears and the spinners need the cotton as much as the planters need the money.—San Antonio Express.

men who are the young doctors and teachers and typewriters in similar schools are preparing to make a failure.

The Secretary said that the Texas Agricultural and Mechanical College has one of the best faculties in the United States. He pointed out that he was glad to see the members of the faculty almost all Southern men, and said that he believed in Southern men for Southern work. The system of too many colleges organized to teach agriculture was commented upon by saying that they generally took the money appropriated for their use by the State and proceeded to make lawyers and doctors out of the students who were sent to the agricultural college.

"I only know one State that has begun right," said the speaker. "That State is Texas. Your college of agriculture has one of the brightest faculties in the world. It has an intelligent board of trustees, and it is the only one I know with these requisites for successful instruction in agriculture."

Speaking of the work of the department in Texas and generally, the Secretary said that there is no

difficulty in getting congress to carry on the work. There was a time when it was difficult. That is all past now. The difficulty is in getting men to spend the money. The department is training 300 young men now to become skilled scientists in the work of the department helping the farming interests of the United States. The department can use more such young men if the agricultural colleges can turn them out ready to begin the work of learning the rest of their business in the department.

FATAL DIVE OF A SLEEPER.

Fearful Plunge of a Somnambulist Who Saved the Sea In His Dream.

Perhaps the most extraordinary fatality ever recorded as arising out of somnambulism was inquired into by the coroner at St. Ives, Cornwall, England, recently.

The victim was a pleasant and popular lad of nineteen named John Summers, who, with his brother Gerald and his father, Mr. John Summers, an iron-master of Ingleswood, Cheshire, had been staying at the Porthminster hotel, St. Ives.

During the visit Jack, as his brother called him, had done much diving into the sea, and this undoubtedly had made such an impression on him that he had the habit of sleepwalking.

It had formed in his childhood, a story which Gerald, the coroner's jury, heard in the eight feet of the sea.

SUMMERS WAS POISED ON THE PARAPET from his bed, called to him. I got no reply, and just at that moment I was startled to see his figure outside the window. He was standing on the parapet, with his hands up and his head and shoulders inclined as if he were taking a header into the sea. Before I could do anything I saw him going over, and then I heard the thud on the ground."

He alarmed the hotel people, and the poor fellow was picked up suffering from severe concussion of the brain, a broken jaw and other severe injuries. He never woke from his fatal sleep, but died at 7 o'clock on Monday morning. On the soft grass of the lawn was plainly visible the mark which was made by his head.

Mr. John Summers said that his son had perhaps become overexcited by his daily diving. When he was six years old he was addicted to a mild form of sleepwalking, but the witness had not known it to happen since. Gerald added that he knew his brother had been dreaming about diving.

Peter's labored enunciation. He

The girl, still sobbing, lifted a tear-
stained face and nodded. Her lover
kissed her in rapturous relief. Then
Tabitha spoke, and her speech was
emphatic. "I'll never look inside that
old paper again," she said.

When she left the phone she found
the little one standing close by. Eliza-

"Not bad," she thought—"a Dona-

and the curls not so fine and tight.
How I should like to paint him! Come
here, little one. What's your name?"
"Alan Campbell naughty."
"Are you naughty?"
"Es. I want my muvver."
His mother! Elizabeth felt a quick
pang of horror. "Come here, and I
will show you something pretty."
She held out her watch. The silver
and gold ornaments on its long chain
jingled attractively. Alan Campbell
slowly drew near the shining object.
He seized it just as a little stray dog
would have done a bit of cake—seized
it and walked away. Then Elizabeth
brought out pictures. It was surpris-
ing how quickly they were friends,
sitting on the floor side by side look-
ing at "pussies" and "doggies."
It was after 11 when Alan Camp-
bell's face began to look doleful.
"I want a cup of milk," he an-

There were a pitcher of cream, some

stock of tea table provisions. With

understand this awakening of myster-

her culture and ambition and stronger

beloved work, everything was forgot-
ten as she held the sleeping child.
A half hour passed, an hour. Alan
Campbell suddenly opened a pair of
questioning blue eyes. Startled by
the strange face, he cried: "Where's
my muvver? I want my muvver!"
His little body shook with sobs.
Rudely aroused from her dream,
Elizabeth felt a quick pang of jeal-
ousy. Yes, she was jealous of the wo-
man whose hold on the child even
death was powerless to break. Silent-
ly she put on her wraps, gathered Alan
Campbell, sobs and all, into her arms
and hurried down to the —th street
cars.
Plumley alley proved to be a neat
flagged court and No. 19 a tiny white
house with green shutters. A little old
man, whose eyes were swollen with
weeping, came to answer her ring.
Alan Campbell called "Huddo Gram-
py." The poor old fellow tried in vain
to control his grief. The girl shook the
trembling old hand and turned away,
unable to express her sympathy. Alan
Campbell smiled after her like a sun-
beam.
Elizabeth closed her studio door with
a shiver. Never had it looked more
beautiful, more orderly or more cold
and still.
"I want my muvver," a little voice
kept sounding in her ear. Ah, these
mothers she had been pitying, how she
envied them now! It was ridiculous to
feel so, and yet, and yet she knew her
arms would always be empty and her
heart hungry for the presence,
something to love.

It was very un-Elizabeth-like, but
somehow she let her head droop on his

feel some one near, some one who was
strong and who loved her. Phil could
not understand, but was grateful for
the miracle which had made the girl
he loved seek his arms like a child.
He spoke low and tenderly.
"Dear, won't you let me be your con-

He bent his head to her tear stained
cheek and her little word of reply was
not so loud as the glad beating of his
heart.
"Only," said Elizabeth, when she
had recovered something of her usual
spirit, "don't flatter yourself it was
your conquest. It was nothing at all
but the eternal feminine."

The Independent Cat.
"There is nothing I admire in a cat
so much as her absolute independ-

room. "You are bound to treat a cat

JOHN WITTMAN THE TAILOR

Trials of Motherhood

305 Broad Street.
PHILADELPHIA, PA., June 12, 1908.

I suffered for nine years with ovarian troubles making life a burden to myself as well as to my family. During that time I had two miscarriages and although we longed for a child to bless our home this seemed impossi- ble. I had constant racking bearing-down pains in the pelvic organs and a pulling through my limbs with frequent headaches. I felt sick at my stomach and vomited frequently and no medicine helped me until I tried Wine of Cardui.

Then my general health improved, the pains gradually lessened and after 18 weeks I was well. I am now the happy mother of a boy eighteen months old and my husband joins me in sending heartfelt thanks to you for your splendid medicine. Without it, I would have been a childless, instead of a happy and well mother.

Ans. Fredrick Nirdlinger
CHAPLAIN, ST. ANDREW'S ASSOCIATION.

WINE OF CARDUI

Wine of Cardui is the most successful menstrual regulator. By regulating menstruation, Wine of Cardui banishes inflammation from the entire female organism and the strengthened ligaments bring the organs back to their proper place. This is what Wine of Cardui did for Mrs. Nirdlinger. It banished the racking pains and burning inflammation and brought her relief. She was restored to health and strength and gives Wine of Cardui the credit of making her able to become a happy mother. This medicine equips a woman for every duty of wifehood and motherhood. There are many suffering women who think that health can never be theirs because they cannot secure the services of a great specialist, but we want to say right here that while Mrs. Nirdlinger lives in Philadelphia, a great medical center, she depended on Wine of Cardui for a cure and she was cured. This same medicine is within your reach. Will you take it?
All druggists sell \$1.00 bottles Wine of Cardui.
